SUMMARY

Full Stack Developer experienced in Next.js, React, TypeScript, and Node.js, building multi-tenant business systems, integrating external APIs, and implementing layered backends with server-side validation and authorization.

PROFESSIONAL EXPERIENCE

Junior Full Stack Developer – MVPX AI (Internship)

01/2026 – 04/2026

Tehuacán, Mexico

Multi-Company POS Platform

- Architected Node.js backend components for multi-tenant operations and implemented automated tests with Node Native Test Runner.
- Improved UX for asynchronous states, including loading, empty states, and error handling in critical POS modules.

Fideguardian – Presta Prenda

- Built OTP authentication and account recovery flows with React and TypeScript.
- Optimized state management with Zustand and React Query, reducing redundant requests and improving data consistency.
- Implemented business rules for user access and onboarding.

Co-founder & Full Stack Developer – Nodatix

04/2026 – 08/2026

Bakery CRM – Business management system

Tehuacán, Mexico

- Designed a multi-tenant architecture with per-business data isolation and a layered backend using Zod, Prisma, and Next.js Server Actions.
- Built customer, order, payment, product, and dashboard modules using PostgreSQL, Supabase Auth, and Storage.
- Integrated WhatsApp Cloud API using an outbox pattern and HMAC-SHA256 validation.
- Strengthened PostgreSQL security with Row Level Security (RLS) and built automated tests with Vitest for services, validations, and business rules.

FEATURED PROJECTS

Evenrent – Event & Rental Management | *Next.js, TypeScript, tRPC, Prisma, PostgreSQL*

08/2025 – 11/2025

- Web system for managing events, resources, rentals, and operations for event service businesses.

NutriDev – Nutrition Management SaaS | *Node.js, Express.js, Service Workers, Stripe*

05/2025 – 08/2025

- Built a PWA with network-first caching, offline fallback, Stripe Checkout, and asynchronous webhook processing.

EDUCATION

Universidad Tecnológica de Tehuacán

Tehuacán, Mexico

Engineering in Software Development and Management

08/2024 – 04/2026

TSU in Information Technology

08/2022 – 07/2024
